NATIONAL BIBLE COLLEGE

C. Norman Sellers, Th.D.
President

Greetings,

Thank you for your interest in National Bible College. We are always glad to learn about someone who wants to know the Word and serve the Lord. This is probably a result of fine leadership in your local church.

Enclosed you will find a catalog and other materials which will let you know something about N. B. C. and its programs of study. **The Extension Handbook will inform you about the procedure for taking courses at home.**

I hope that you will share this information with your pastor and others. If you could get a group of 4 or 5 together, your pastor or other qualified person could teach you together as a class. We would furnish all the materials needed, including registration forms, syllabus, study questions, and exams. The college would, of course, give the credits and he would be compensated for his time.

Until then, you can take as many courses as you want by extension, even up to your degree.

God bless you in your commitment to Him.

Sincerely In Christ,

C. Norman Sellers,
Th D President
